

## FUTURE OF THE TRAILS

Planning, clearing, grading, grooming, bridge building and removing brush, stumps, and other obstructions requires the expenditure of time, money, and effort. To ensure that the Machickanee Cross

Country Ski Trails can be adequately maintained and improved for the future, donations, ski club memberships, and volunteer assistance are needed. Your support is greatly appreciated.

## TRAIL SYSTEM

The Machickanee Cross Country Ski Trails were originally planned and developed by local skiers in the Oconto County Forest with the cooperation of the Oconto County Land, Forest, and Parks Committee. The current trail system has resulted from the efforts of many volunteers who have donated their time, money, and energy since 1978. In 1982, the Machickanee Cross Country Ski Club was formed to organize those efforts.

The trails lead through a series of forest types, including red pine plantations, coniferous swamps, oak ridges, and birch and aspen stands. They undulate through topography ranging from creek bottoms to ridge tops. Numerous hills and curves of various slopes and lengths make this course a

challenge for the intermediate to advanced skiers.

The Machickanee Cross Country Ski Trails also include a beginner loop that can be enjoyed by skiers of all ability levels.

Look for the candlelight skis on Saturdays before the full moon during the season.

### TRAIL USAGE

Skiing on the Machickanee Trails is at your own risk.

The Trails are open to the public at no cost. However, donations are encouraged to allow upkeep and grooming to continue.

While using the trails, please use caution to prevent injury to yourself or others. Treat the area and your fellow skiers with respect. Please leave your pets at home; they damage the track and present a hazard to other skiers. If being overtaken by faster skiers, move off the main track so as to let them pass by. If you remove your skis, do not walk on the track. Please, no skate skiing.
